

e-Readiness for e-Health in a Low Resource Setting: Experience of North-Western Province

Dr W.M.A. Wijekoon

MBBS, Msc (BMI)

Health Informatician / CIO

Department of Health Services - NWP

Electronic Readiness

The degree to which an entity is prepared to **obtain benefits** from adopting ICT.

Components of e- Readiness

- Hardware
- Infrastructure to access the network
- System Improvement
(policy, guidelines, standards on privacy, security, ubiquity ect.)
- Human Resources
- Applications and services
- Economy & financing

North-Western Province

12% of the land

12 % of the population

2 Administrative Districts

	Western	NW
Land Area	5 %	12%
Population	28%	12%
GDP Share	44%	10%
Per capita income ³ (Rs '000)	500	275
Medical Schools	4	0
Line (Central) Ministry Hospitals	11	2
Physicians per 100 000 people	> 100	40 - 60

Department of Health Services Provincial Council of NWP

Secretary of MoH - NWP

Provincial Director of Health Service

Regional Directorates : 2

Institutions : 218

Staff Strength : 7200

Occupation Categories :100

Stop wasting the time identifying "gaps". stop writing papers & holding conferences on the "gaps". Anyone working on ICT already knows these things.

Be more focused & more action oriented.
